Lingual Orthodontics: The *ideal* System

Course Highlights

ideal...if you are looking for an alternative approach to aligners for adult cases.

ideal...if you want to use a lingual system which is low profile and comfortable for your patients.

ideal...if you are looking for a course with individual attention (max 12 attendee) to get you started treating simple lingual cases.

Course Content

Session 1
History of lingual orthodontics
Session 2
Brackets and systems available
Session 3
Biomechanics
Session 4
Direct and indirect bonding
Session 5
Practical bonding and ligation

Course Instruction

Mr. Ian Hutchinson is a qualified Specialist Orthodontist with a passion for Lingual Orthodontics; having been invited to

lecture world wide and had many articles published on the subject. Mr Hutchinson not only has his own specialist practice but is also Clinical Director of Lingual Orthodontics at Warwick Medical School; which places him at the forefront of all latest developments and techniques within Lingual Orthodontics.

Dates:

Friday 7th January
Friday 18th March
The Smile Lounge, Chepstow

Duration:

1 day - 6 CPD Points

Course Fee: £550+VAT

Fee includes a free case of lingual brackets worth £95.60

Infinitas Mini Implant Course

Introductory Course

Course Aims

To equip orthodontists with the essential theoretical & practical knowledge to easily begin using mini implant anchorage.

To critically appraise the literature evidence on mini-implant techniques.

To explain the design, benefits and clinical usage of the Infinitas mini implant system.

To provide practical in-vitro teaching on the use of the Infinitas system.

Course Instruction

Course instruction by Richard Cousley.

Richard has used a variety of both implant and mini implant anchorage systems since 2000, and has been a consultant orthodontist in Peterborough since 2001. He has lectured throughout the UK and as an invited speaker internationally, and published widely on orthodontic bone anchorage, most recently focusing on mini implant clinical techniques and protocols.

Course Content

Session 1
Orthodontic mini implants overview
Session 2
Factors affecting mini implant success: the evidence
Session 3
Infinitas design features
Session 4
Practical - Hands-on mini implant insertions
Session 5
Infinitas planning and clinical scenarios
Session 6
Questions & course conclusions

Dates:

Friday 28th January - Royal London Hospital
Friday 1st April - Edinburgh RCoS

Duration:

1 day - 6 CPD Points

Course Fee: £395+ VAT

Course Fee includes, Instruction Manuals, Demo model with 2 Infinitas mini implants. Also includes £120 voucher off Infinitas Kit.

“Well presented and engaging with good balance of evidence and clinical tips, would feel happy placing implants now”

Infinitas Mini Implant Course

Advanced Course

Course Aims

To update orthodontists on the latest clinical applications (treatment planning and biomechanics), products and research; and advanced clinical techniques.

To provide an update of the latest background and clinical research

To provide detailed discussion on the treatment planning and biomechanics (including discussion of participants' pre-submitted cases)

To discuss advanced mini-implant uses eg indirect anchorage, palatal intrusion (using Infinitas TPA), direct molar distalisation and orthognathic uses

Dates:

Friday 11th Feb - Leeds

Saturday 2nd April - Edinburgh RCoS

Duration:

½ day - 3 CPD Points

Course Fee: £250+VAT

Course Content

Session 1

An update on mini implant biomechanics

Session 2

AOB treatment

Session 3

Intrusion practical

Session 4

Distalisation treatment

Session 5

Distalisation practical

Session 6

Questions & course conclusions

"An excellent and well balanced course, good information regarding technical aspects of the system and its evidence based background"

Understanding Decontamination & HTM 01 05 Seminar

Course Highlights

This informative and interactive seminar aims to build upon the basic awareness of decontamination and infection prevention and control in the dental environment by informing the delegates of the most recent HTM 01 05 guidelines.

Delegates will gain a greater understanding of the implications of non-compliance to the regulations, a real understanding of what the regulations means in their day-to-day roles and confidence to carry out self audit to national standards as stated in HTM 01-05.

Course Instruction

We are delighted that these Seminars will be lead by Julie Hayes – Infection Prevention & Control /Dental team Advisor (NHS western

Cheshire). Julie has a vast experience of implementing the HTM 0105 regulations into practices, auditing ,developing and coordinating training in this area and also, importantly, years of experience of working within all dental settings.

Course Content

Session 1
Introduction to HTM 01 05 and decontamination
Session 2
Infection prevention and control
Session 3
Basic micro-biology
Session 4
Decontamination room
Session 5
Quality of products
Session 6
Hand hygiene and PPE
Session 7
Sharps / body substance spillage / waste / legionella

Dates:

Friday 4th February - London
Wednesday 16th February - Manchester

Duration:

1 day - 6 CPD Points

Course Fee: £75+VAT

Second attendee at half price
Fee includes 25% discount voucher when spending £100 on Rensa products

“Very helpful introduction to & guidance on HTM 01-05”
