Rhodium Photographic Mirrors

High resolution intra-oral photos depend on superior reflective mirrors. We offer four styles that give you unparalleled access to all intra-oral regions. Tough chromium mirror surface is permanently bonded to a metal base that resists chipping. Rhodium intra-oral mirrors are the best choice for photography. Coated both sides for durability. Rhodium provides higher reflectance for sharper, precise images with 35mm and digital photography. Rhodium mirrors withstand repeated steam and autoclave sterilization. Sterilizable up to 350°F, 180°C. Sold individually

£40.15

A Palatal Adult	DB04-0160
B Palatal Child	DB04-0161
C Buccal	DB04-0162
D Lingual	DB04-0163

Soft Spandex

Soft material allows greater flexibility. Soft cheek retractors are less prone to fracture than hard plastic type. Ideal for intra-oral photography as matt finish does not reflect glare from flash unit. Fully autoclavable. Standard and junior size.

Small - **DB04-0186**

Large - **DB04-0185**

£17.30/pair
